FIRE SAFETY AND FIRE SAFETY PLAN PROCEDURE

Superintendent Responsible:

Superintendent of Education:

Initial Effective Date: 2020/04/27**Last Updated:** 2023/07/07**Next Review Date:** 2027/07/07**Purpose:**

In Ontario, all Schools, Educational Facilities and Board Owned buildings, must comply with the Ontario Fire Code and the Ontario Building Code. This compliance includes ensuring; proper storage of materials, keeping exit corridors, hallways and stairways clear of combustibles and obstructions, maintaining fire doors and fire separations, proper use of extension cords, correct occupant load for assembly events, etc.

Compliance also includes the creation of a fire safety plan at all sites that is reviewed at least annually or as soon as changes are required. For the safety of both employees and students, procedures should be in place, annual training (including fire drills) and information provided related to both fire safety and the fire safety plan specific to the location.

Guiding Principles:

Fire Alarm Response (See the Fire Safety Reference Manual)

1.0 Required to Report

- 1.1 The local Fire Services Authority has jurisdiction over all fire safety matters and Grand Erie District School Board (Grand Erie) requires that all fire related occurrences or incidents be reported immediately. All fires will be investigated by the fire service authority having jurisdiction and Grand Erie personnel. A copy of the Grand Erie report shall be submitted to the agency having jurisdiction. The local Police are to be contacted for any confirmed or suspected arson-related fire-incident.
- 1.2 Schools are also required to report any fire system shutdowns to the local fire chief. This notification is done through Facility Services, but in their absence that notification must be made by the administrator in charge of the building.

2.0 Required to Evacuate

- 2.1 Ontario Fire Code and Grand Erie require schools to evacuate completely and immediately anytime the fire alarm is activated, or a fire is discovered on site no matter how small, even if the fire is extinguished by personnel. All Occupants are not allowed to re-enter the building until an "All Clear" is obtained by the local fire services. The fire panel is not to be re-set until the area of the fire has been investigated and the "All Clear" is confirmed by the local fire services,

3.0 Fire Drills

- 3.1 Schools shall conduct total evacuation fire drills three (3) times in each of the fall and spring terms. If a school is operating summer programs, they shall conduct one during each month of operation. Fire drills shall be held during operating hours when the school is occupied by students. The first fall term evacuation drill should be held early in the school year to ensure that students are familiar with proper evacuation techniques. Fire drills must also occur at any off-site locations utilized by Secondary Program (i.e. Turning Points etc.) These drills must be documented in the fire logbook. In order to qualify as a fire drill, ALL building occupants must evacuate. Review any issues that occurred during the fire drill and resolve for future drills.

Fire Safety Plan (See the Fire Safety Reference Manual)

4.0 Purpose

- 4.1 The Fire Safety Plan shall be followed by all personnel in case of a fire or any other emergency requiring the evacuation of a Grand Erie Building. All locations must use one of the approved Fire Safety Plan templates as found on the employee portal.
- 4.2 <https://staff.granderie.ca/index.php/departments/health-and-safety/administrator-and-site-rep-health-and-safety-information/fire-safety-plans>
- 4.3 A complete copy of the approved fire safety plan shall be located at the main entrance to the school by the fire alarm panel for use by firefighters. A copy of Appendix 5 (of the school's fire safety plan) – Procedures for Off-Site Educational Locations must be available at the off-site location.
- 4.4 The fire safety plan shall be reviewed annually, or as any changes are needed by the building administrator or Manager. Any physical changes may result in a revision of the present Fire Safety Plan; temporary changes may possibly be addressed under alternate measures. The review shall include provisions for dealing with students with special needs or disabilities. Revisions to the Fire Safety Plan must be approved by the local Fire Department
- 4.5 Any person given any responsibility identified in the Fire Safety Plan shall be made aware of their duties under the Fire Safety Plan and shall receive training prior to assuming responsibilities.

5.0 Fire Safety Committee

- 5.1 A Fire Safety Committee is to provide an organized distribution of the duties and responsibilities as set out by the Fire Safety Plan. Each member of the Fire Safety committee will have their specific responsibilities pertaining to the Fire Safety Plan whether it pertains to maintenance and/or readiness of fire safety or the responsibilities during a fire alarm situation.
 - Administrator(s)
 - Teacher in Charge or Admin Designate
 - Building Facility Personnel
 - Building Secretary

6.0 Responsibilities

- 6.1 Administrator(s)
 - 6.1.1 Be in complete charge of the approved Fire Safety Plan and the specific responsibilities of the personnel.
 - 6.1.2 Designate and train enough workers to act in this position, during any absence of administrators from the building.
 - 6.1.3 Ensure that all Fire Safety Committee members have been provided with the appropriate sections(s) of this Plan and trained to perform related duties.
 - 6.1.4 Educate and train all employees and students in the actions to be taken under the approved Fire Safety Plan.
 - 6.1.5 Maintain adequate records of all employees training for future reference.
 - 6.1.6 Survey the building to determine the number of exits available from each floor or area and then prepare and post in each classroom or area, a schedule for use by the occupants of such exits (primary and secondary) in case of an evacuation.
 - 6.1.7 Ensure that a floor plan (schematic diagram), showing type, location and operation of all building fire emergency systems, is maintained and posted in the main entrance and in conspicuous locations throughout the building.

- 6.1.8 Total evacuation fire drills should be held (3) three times in each of the fall and spring terms and as required if operating during summer months.
- 6.1.9 Maintain adequate records of all fire drills for future reference.
