

# Welcome to Grand Erie DSB eLearning!

## To access your Grand Erie eLearning course:

Log in to your home school board's Virtual Learning Environment (VLE). You may know it as "Brightspace", "D2L", "The Hub", etc.

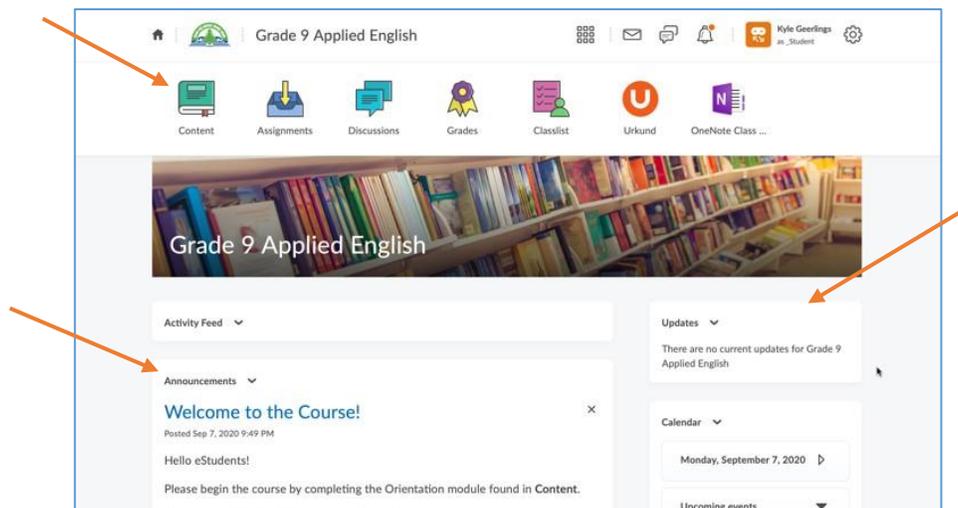

Once you are in your own board's VLE, you will see a widget called "My Courses in Other Orgs". Your Grand Erie eLearning course will be listed there. Click on it and you will automatically be launched into your course. Don't see your course there by the course start date? Please reach out to your Guidance Counselor for assistance ASAP.

## Navigating Your Virtual Class

You will now see the class homepage. This will be where you will see 'Announcement' or 'Activity Feed' items, class 'Updates' (unread feedback, discussions, etc.), and have access to various virtual tools. You will spend most of your time learning in the 'Content' area, where lessons and assignments will be posted. Your course homepage may look different, depending on how your teacher has customized it.

Check the home page for teacher office hours and information on how to start the course. Your teacher will have posted an Orientation unit to help you become familiar with the VLE.

**NOTE: If you experience technical difficulties, contact your eLearning teacher. Please check the email account you used to register for eLearning to read your teacher's introductory email.**
